

Results as at 29 January 2025
Following the Digital, Technology, Innovation and Business Award Board, please see below your confirmed results. This profile shows the modules you have studied and the marks for these. You will also see an explanation of what these results mean and how to access any additional guidance.

Congratulations, you have passed all the modules you have taken to date, details of which are provided below. Please note this relates only to modules you have fully completed all of the assessments for. The informal results for assessments you have taken so far are available via Blackboard, the platform that you submitted the work via or your module leader.

Totals Credits Passed to Date

Please note that these totals do not include any modules shown above as Additional, as these do not count towards the credits required for your award.

Level	Total
4	120
5	40

Appeals

An **appeal** is when you ask the University to change its decision on your results, progression or final award. The only reasons you can appeal are if your results have been affected by the University not following its own assessment procedure or you had exceptional circumstances which you could not reasonably apply for, or evidence, using the Exceptional Circumstances Procedure. If you think you have a valid reason to appeal, you will need to do so within two weeks of the date on this notification.

Additional Guidance

Please click on this link for more detailed information and for contact details of where you can access support. http://www.staffs.ac.uk/support_depts/saas/resultsa-z.jsp

Your results have been determined in accordance with University Regulations which are available for you to view [here](#).
